

Hydrafacial Bag

What is it you ask? OH My Gosh! Where do I begin!
It's the bag that keeps on gifting. In your first 2 pouches, you get amazing ability to exfoliate your skin!! In your next 2 pouches, you get to Nourish your skin with Mary Kay's Amazing Products.

According to Instyle Magazine: "The Hydrafacial is one of the most popular in-office facial treatments right now. One is performed every 15 seconds around the world. The stat alone is impressive, but the treatments become the go-to facial for celebs, your co-worker, and FACEBOOK friend from high school because it targets many of the most common skincare concerns like dryness and signs of aging with little to no side effects."

For those unfamiliar, the HydraFacial is a resurfacing treatment that clears your pores out, plus hydrates your skin. It's offered across the at licensed medical professional facilities, or where a certified HydraFacial esthetician is present starting out at \$250 a visit.

This four-step treatment includes cleansing, exfoliating, extracting and hydrating the skin with serums that are infused into pores. As you know in Mary Kay we get to let you spend the time on yourself in the comfort of your own home!!
